tomorrow.

Inmind is committed to ensuring the continuity of critical activities and services for all stakeholders during crises and disasters through a Management System that aligns with the requirements of the Business Continuity Management System ISO 22301:2019.

To achieve this, Inmind's Top management is committed to:

1. Develop and implement a Business Impact Analysis (BIA) across all activities, processes, and Departments to identify critical processes.
2. Identify potential business continuity risks to operations and implement appropriate measures to mitigate those risks.
3. Ensure the commitment of all departments with critical processes to develop and implement Business Continuity Strategies and Plans, considering changes in processes and services.
4. Conduct and evaluate drills and tests to ensure the effectiveness of strategies and response procedures, and apply lessons learned to enhance Business Continuity Plans.
5. Provide training and raise awareness about the tools and requirements for implementing the Business Continuity Management System to all stakeholders to enhance their capabilities and ensure stability in organizational performance.
6. Providing necessary resources to implement business continuity strategies and manage risks efficiently and effectively.
7. Ensure continuous monitoring and review of policies, procedures, maturity levels, and compliance with relevant laws, requirements, and standards to address any potential business disruptions.

The Top management and employees of inmind.ai are committed to implementing the Business Continuity Management System and continuously improving its activities. The management system undergoes regular reviews to ensure compliance with the standard's requirements. Any changes in the business context will be assessed, and the policy will be updated as needed to ensure its relevance and continual enhancement.

Date: 28.08.2024

Al Bouna Bechara

Chief Executive Officer
